ABOUT ME

Laravel Developer focused on **scalable architecture** and **secure REST APIs**. Proficient in **queues**, **events**, **RBAC**, and **job scheduling**. Write clean, maintainable code using **Service**, **Repository**, and **Observer** patterns.

EDUCATION

Indira Gandhi National Open University (IGNOU)   Jul 2025 – Present
Master of Computer Applications (MCA)   *New Delhi, India*

CSJMU (Chhatrapati Shahu Ji Maharaj University)   Aug 2018 – May 2021
Bachelor of Science (Physics and Mathematics)   *Kanpur, Uttar Pradesh*

PROFESSIONAL EXPERIENCE

Laravel Developer   Jan 2025 – Present
Foremost Digital Inc.   *Remote / Ahmedabad, Gujarat*

- Refactored a legacy codebase into **service-based architecture** with **observer pattern**, improving performance and maintainability.
- Built scalable **RESTful APIs** and modular backend features using **Repository** and **Service** design patterns.
- Integrated **Spatie roles and permissions**, **queues**, **events**, and **job scheduling** to streamline complex user workflows.
- developed a **franchise module** enabling multiple clinics under a single hub for a **Canada-based dental staffing platform**.

Laravel Developer (Intern + Full-time)   Apr 2024 – Dec 2024
Developer Brothers   *Kanpur, Uttar Pradesh*

- Started as an intern and transitioned to full-time after demonstrating strong backend development skills in Laravel.
- Built and secured RESTful APIs for web and mobile apps; implemented **token-based authentication** using **Sanctum**.
- Modularized backend logic using reusable **service classes** and implemented **RBAC** for role-based access.
- Collaborated with frontend and QA teams to deliver features efficiently and resolve integration-level issues.

PROJECTS

Fairly Staffing | *Laravel, MySQL, AJAX, jQuery*   Feb 2024 – Present

- Actively contributing to a live platform for a **Canada-based client** that connects dental clinics with hygienists and assistants.
- Modernized a legacy system by implementing **service-based** and **observer-driven** architecture.
- **Built a scalable multi-clinic franchise module**, enabling multiple dental locations to operate under a central hub.
- **Implemented RBAC** using the **Spatie** package to manage complex user permissions.
- Streamlined backend logic using reusable **service classes**, **event listeners**, and **job queues** for emails, uploads, and notifications.

Experts App Optimization | *Laravel, MySQL, Git*   Jul 2024 – Nov 2024

- **Optimized and debugged** an existing **Laravel** application aimed at idea sharing, skill development, and user certification.
- Fixed API-related issues, improved performance, and enhanced backend stability across multilingual support **(Arabic/English)**.
- Collaborated with the team to streamline the debugging workflow and improve API response.

TECHNICAL SKILLS

- **Languages**: PHP, JavaScript, Python
- **Backend & Frameworks**: Laravel, REST APIs, Django (basic)
- **Architecture & Patterns**: Service Classes, Repository Pattern, Observer Pattern
- **Frontend**: HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery, AJAX
- **Database**: MySQL, SQLite, MongoDB
- **Libraries & Integrations**: Stripe (Payment Gateway), Twilio, Intervention Image, Dropzone.js, Yajra DataTables, Select2.js
- **Testing & Debugging**: Postman, Laravel Debugbar, Log Viewer, Browser DevTools

LANGUAGES

- **Hindi**: Native (Read, Write, Speak)
- **English**: Professional (Read, Write)
